C F/C G C(#11) Fsus2(#11) F Galt Gsus4 Csus2

I real-ly don't know for sure but I real-ly hope it's

4 Fsus2(#11) F Galt Gsus4 Galt Gsus4 Galt Gsus4

true that the sun and moon are dat - ing. Oh, don't you hope so

8 Galt Gsus4 G Csus2 G Csus2 G C G C F/C

too? But they live so far a-way

15 G C(#11) C Fsus2(#11) F Galt Gsus4

and I guess they're all a - lone but I know that it could work

19 Galt Gsus4 Galt Gsus4 Fsus2(#11) F G Csus2 G

if they on-ly had a phone.

25 Csus2 G C G C F/C G C(#11) C Fsus2(#11) F

But they'd make a per-fect pair! I'm sure you do a - gree.

31 Galt Gsus4 Galt Gsus4 Galt Gsus4 Galt Gsus4

so I'm sure there is a rea - - - son why it is-n't meant to be.
